1 Schema + catalog

Meta-Urban 2.0 schema
81-concept vocabulary
mapped to Brick, BEDES,
CityGML Energy ADE

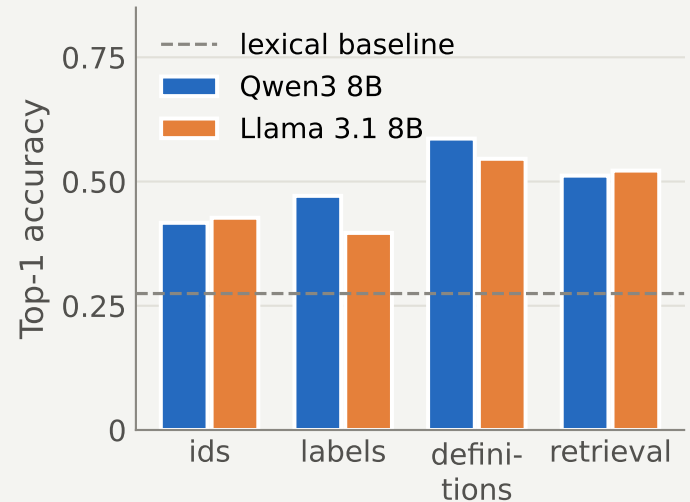
91 verified open datasets

3 of 48

non-geometric datasets link
to individual buildings

2 LLM benchmark

2,048 survey variables, two local
8B LLMs, four levels of context



3 Why errors matter

Survey weights ignored

-16% to +102%

error in energy use intensity

Unit multiplier dropped

x 1,000

error in energy totals
