1 AI-ready schema

6 design principles, each tested

Meta-Urban
one LinkML source

for people

documentation
OWL ontology
links to Brick,
BEDES, Energy ADE

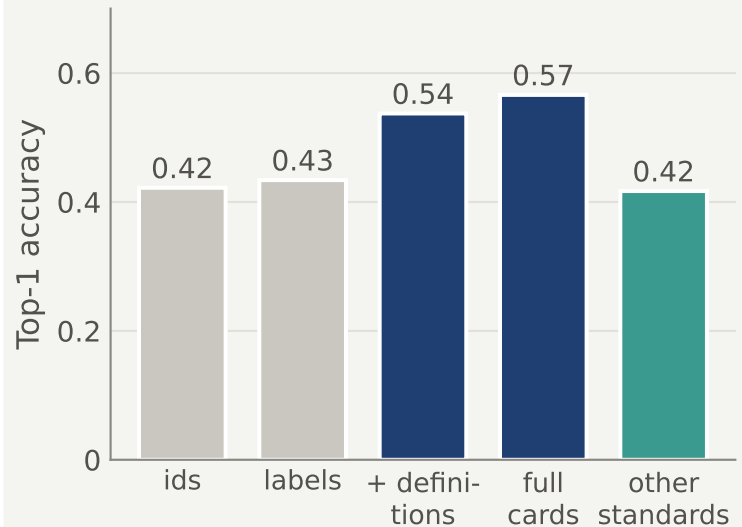
for AI

concept cards
dataset cards
JSON Schema
SHACL checks

AI output checked against the same schema

2 Definitions are the core

Mapping survey variables to concepts,
two local 8B models (mean)



3 Conventions and checks

Imputation flags linked to their variable

0% → 100%

when the schema states the convention

Invented concept identifiers

1.7% → 0%

with a closed vocabulary (JSON Schema),
at no cost in accuracy
